Subject: RE: ASAP for David G/Laporte/I am going now thru emails you have previously sent/but does this need to go to ENF?

Susan – below are the responses.

Mike/Sam/Steve – if you disagree or have additional information for #2 & 3, please respond.

Respectfully,

Bryant Smalley

OEM has supposedly given some answers to these questions...Ronnie are you getting Dana Tulis Responses?

1. Can you tell me when DuPont submitted its risk management plan for the La Porte plant to the EPA? Originally submitted June 25, 1999, four updates were submitted before the most recently updated submission September 23, 2011 (However, an

9541361

amendment of their Accident History was submitted May 4, 2012 for a January 2012 Accident). RMPs are required to resubmit and update every five years.

2. Was the plan ever reviewed or audited? A completeness check was conducted by the RMP Program when the update was submitted.

3. Did the EPA ever conduct an on-site inspection of the DuPont La Porte plant to assess whether it was complying with the requirements of the risk management program?

No Inspection has been conducted. No records of a RMP Inspection at this facility were located.

If so, can I get the details about the findings of those inspections? N/A
